

RESTORING SIGHT & HOPE AROUND THE WORLD

At the request of a major donor, LEBDV is formalizing the International Gratis Tissue Program in honor of Sadeer B. Hannush, MD.

Dr. Hannush's tremendous advocacy for those living in corneal blindness overseas has changed the lives of hundreds of individuals. LEBDV is formalizing the International Gratis Tissue Program in honor of our esteemed Medical Director, Sadeer B. Hannush, MD.

Local Partner Surgeons

We are proud to partner with local surgeons who volunteer their time and talents in service to people in need beyond our borders.

Total Number of Cornea Transplant Recipients

Haiti 7	Ecuador 30
Dominican Republic 9	Rwanda, Africa 98
Jamaica 2	Burundi, Africa 29
Guatemala 24	Kenya, Africa 145
El Salvador 1	

Sadeer B. Hannush, MD conquers Mount Kilimanjaro with his son, Eddie

Did You Know?

At any given time, more than 12 million people around the world live with cornea blindness, a condition that is preventable and curable with access to proper medical eye care.

Sight-saving Impact

345 Corneas coordinated by LEBDV have supported people in desperate need of a transplant beyond our country's borders.

Financial Impact

\$1.25 Million allows us to contribute our services without regard for reimbursement. Additionally, tissue that is distributed internationally is held to the same quality standards as tissue distributed in the U.S.
